

Be a Hero! Join a creative and energetic team of Volunteers at Transplants for Children

HEROES Network: Transplants for Children's Heroes is a family-centered empowerment program. Through mentoring and leadership development we aim to foster a transplant tribe of solidarity. We create a space of trust where family members can express their reality, achieve acceptance and help each others triumph.

This program is designed to bring out unique and heroic attributes in each individual affected by their transplant journey. Heroes' sessions will include every parent, every sibling, and every transplant child. The tools provided to our families through Heroes will develop and improve the skills needed to persevere together.

** Must be at least 17 years of age and must pass criminal history check*
